

Josefine Löfgren, Frontend Developer

Stockholm, josefine.lofgren@live.se, (+46) 76 79 88 105

Profile

Frontend developer with a strong focus on creating intuitive, user-friendly applications using React, TypeScript, and other modern tools like Vue and Next.js. Experienced in building scalable solutions for diverse platforms, collaborating with cross-functional teams, and ensuring high-quality user experiences.

Employment

Sep 2022 — present

Frontend Developer at Garrison Consulting

Consultant at Nobia, ensuring cohesive, user-friendly experiences across platforms. Key contributor to various projects, including leading the development of a booking app—from research and design to frontend implementation—using technologies like React, and TypeScript, while maintaining high standards across all initiatives.

Apr 2022 - Sep 2022

Frontend Developer/UX Designer Intern at Garrison Consulting

Consultant at Nobia, developing responsive frontend components with Vue.js, React, and EpiServer. Worked closely with the UX team on user research and usability testing, improving design decisions and user satisfaction.

Jan 2022 — Mar 2022

Fullstack Developer Intern at Yepstr

Collaborated with the development team to identify, troubleshoot, and resolve bugs in React Native applications for both Android and iOS platforms.
